# Subject: PFE internship request

---

**Sir or Miss**

**Diginov**

**Yasser Arafet Sahloul Street, Sousse, Tunisia**

**In Sousse, November 2022**

Currently a third-year student in computer science at Higher Institute of Computer Science and Communication Techniques (ISITCOM), I request your attention in order to study my application for an intern position for an end-of-year project. Indeed, I aim to realize my professional project in the field of mobile application given my skills acquired during my training.

I thus allow myself to solicit an organization such as yours where I will not only be able to understand the whole job of a mobile developer but also and above all benefit from your experience, particularly in mobile applications, for this I strongly wish to integrate your company.

My varied experiences have allowed me to adapt to different cultural and professional environments, developing open-mindedness and organizational skills. Energetic, motivated and persistent I also have the ability to invest in myself and be on call.

Therefore, I would like to integrate your services for my 4–6-month internship (starting from February 2023).

Please attach my CV, it will tell you more about my background.

Pending your response, please accept, Sir, Madam, the expression of my most distinguished greetings.

**Sidi Ahmed HABIB**
